

# DIN 472, Sicherungsring Form J, 9x0,8 mm, FST, phosphatiert

Artikel-Nr.  
1004729

Zolltarifnummer  
73182400

Güte  
FST

Durchmesser  
9 mm

Gewicht in kg  
0

Material  
Federstahl

Beschichtung  
phosphatiert

Stärke  
0,8 mm

## Produktdetails

Haltering, für Bohrungen.

|               |              |
|---------------|--------------|
| Stärke        | 0.8 mm       |
| Material      | Federstahl   |
| Norm          | DIN 472 J    |
| Durchmesser   | 9 mm         |
| Güte          | FST          |
| Beschichtung  | phosphatiert |
| Stärke s      | 0.8 mm       |
| Durchmesser d | 9 mm         |

## Hinweise

\*) nicht genormte Abmessung

. Achtung: Gefahr der Wasserstoffversprödung gemäß ISO 4042. Bei Rückfragen kontaktieren Sie uns bitte unter: [engineering@keller-kalmbach.com](mailto:engineering@keller-kalmbach.com)
